

On the picturesque slopes in the surroundings of Novska, where the air due to specific microclimate is extraordinarily reminiscent that of Mediterranean, we also settled - O.P.G. Ivan Došlović, true lavender lovers.

Our journey began ten years ago when we discovered the beauty of lavender, so today we are cultivating surfaces larger than 5 Ha. Each year of this journey brought us new challenges and opportunities and finally led us to a wide range of products for different purposes. From the start, we made it our mission that we want to create only top quality products.

In each of our product, we embody a note of design, innovation and great affection for this plant. Every day we work to raise the quality of our products, which we guarantee thru our dedication and passion for this business.

Personalized bags filled with 'Queen of the Mediterranean' – The Lavender.

We all know how lavender calms, relaxes and makes you blissfully happy, but do you know why it is called the 'Queen of the Mediterranean'? Because of its special shade of purple and aromatic fragrance, it has been considered a royal plant since ancient times, and today it is a trademark of the Mediterranean. Why? Because her fragrance brings back memories of sand under your feet, the smell of the sea and the sound of waves in the summer evening walks along the coast. This nostalgic feeling for the summer holidays has inspired us to create PERSONALIZED LAVENDER BAGS that will be the perfect memento of their staying at YOUR HOTEL.

In addition to filling rooms with the soothing scent, they will be the perfect gift for your guests to bring back to their homes where they will remind them of an unforgettable time at YOUR HOTEL.

In our offer, we have a large selection of lavender bags made of different materials that are filled with lavender of different weights. We are especially proud of the bags made of high quality domestic white brushed canvas. In addition to the classic bag shape, we are able to make bags according to your ideas. You can print HOTEL LOGO, a specific message or a motif on a bag that will bring back your guests memories and sentiments of vacation at YOUR HOTEL and will definitely bring them back for a repeat visit. Send the 'Oueen of the Mediterranean' to their homes and make a long-lasting bond with them.

•

Along with to our most prominent product - personalized fragrant lavender bags, we also produce fragrant candles, essential oils and lavender hydrolates. Each of these products has numerous uses in everyday situations, and lavender essential oils also contain healing properties and have an antiviral and anti-inflammatory effect. Besides external use on the skin or in addition to relaxing healing baths, it is also used for inhalation, aromatherapy and refreshment.

Lavender hydrolat has features that make it work completely purifying and regenerative and will provide your guests with the most carefree vacations since it is ideal for refreshing their faces during the summer heat.
